

## TASKI<sup>®</sup> ergodisc 1200

### Ultra high speed single disc machine

---

#### Key features

- ▶ Speed
- ▶ Ergonomics
- ▶ Safety
- ▶ Simplicity

The ergodisc 1200 is especially suited for the following tasks:

- Buffing - Spray cleaning - Burnishing.

#### Designed for speed

a brilliant shine in half the time. Ease of use (straight line action) and ultra-high speed ensures shiny slip-resistant floors in a fraction of the usual time. The front steering wheel results in greater manoeuvrability and straight line action. A large working width (50cm / 20") and a superb ability to remove traffic marks means the TASKI ergodisc 1200 is ideal for larger areas.

#### Ergonomics

better working conditions improve productivity through:

- anatomically formed grip
- adjustable handle bar height
- low vibration level
- low noise level
- soft start characteristics

#### Safety

creates a safer working environment through:

- hand protection due to closed handle
- double safety lock

#### Simplicity

easy of use results in improved efficiency through ease of:

- training and operation
  - attaching accessories, no tools required
  - storing and transporting, enabled by a foldable handle and a movable weight
-

# TASKI ergodisc 1200 Specifications

## Technical Data

Description		Description	
Working width	50 cm (19.8 inch)	Voltages available	230 V / 50 Hz , 220 V / 60 Hz , 120V / 60 Hz
Speed	1200 rpm	Cable length	25 m
Weight	42 kg	Sound level	64 dB(A)
Engine height	43 cm	Protection class	I
Nominal consumption	1300 W	Approvals	CE, TÜV

## TASKI ergodisc 1200

### Model

TASKI ergodisc 1200

## Accessories/Additional Parts

### Description

Suction unit 120V / 230V

Suction skirt / splash protection

Suction skirt kit (incl. bottle holder, 2 screws, 2 rings and 4 weiths)

Double filter paper bags (pa of 10)

Microfilters (pa of 5)

HEPA filter

An overview of other accessories, brushes, pad drives and pads is available on request

### Description of Features

**Vacuum unit and suction skirt:** The combination of vacuum unit and suction skirt is an ideal solution to prevent dust emission into the air. During spray cleaning, the skirt also acts as a splash protector.

**Direct solution distribution:** The cleaning solution is distributed through the centre of the pad, the whole surface of the pad is therefore utilised. An electrical spray unit is fitted as standard.

**Full pad contact:** The floating pad drive gives a constant working pressure and enables the machine to be used on uneven floors.

**Robustness:** TASKI ergodisc is an innovative range of single disc machines. The use of high-tech materials creates robust, shock absorbing machines with an extended lifetime and low service costs.

All ergodisc machines come with 2 years warranty.
