

Clax Universal

3CL4

Liquid Detergent Booster With Optical Brightener

CLAX Universal is a liquid detergent booster based on a blend of surfactants and containing an optical brightener.

The primary application of CLAX Universal is for use in combination with an alkalinity booster liquid from the CLAX Universal "1" series. This combination can be complemented by the addition of a bleach, offering a practical solution for the majority of fabric needs encountered in hotels & healthcare establishments.

Features and Benefits

- ▶ Easy dissolution and dispersion of fats and oils - Good removal of fatty stains
- ▶ Low foaming blend of surfactant. - No over foaming - optimal use of Washer mechanical action
- ▶ Low viscosity - Easily dosed and dispersed - rapid action

Background information

An effective detergent booster should have excellent fat removing properties. This involves the dispersion of fat and oil, following its removal from the fabric, thus preventing redeposition. The formulation of **CLAX UNIVERSAL** has been selected specifically to meet these requirements. When used in combination with a builder booster, excellent soil removal and wash good whiteness can be ensured. Bleach should be used when appropriate.

Additionally, **CLAX UNIVERSAL** contains a special optical brightener, which is active at all temperatures. This brightener is not sensitive to bleach and is very stable to yellowing by direct sunlight. Detailed application and dosage suggestions are given in the wash process charts, which have been developed for washing various types of fabric at different soil levels.

CLAX UNIVERSAL is auto-dosed through a unique automatic dosing system. The wash process is customised by the Diversey Technical Service Personnel to get optimal results.

Clax Universal 3CL4 Use Overview

Directions for use

Dosage recommendation :

0.5 - 1.5 ml / kg depending upon type of soil.

Technical data*

Description	
Appearance	Clear light brown free from visible impurity
Product pH	12 - 13
Specific gravity@25°C	0.90 - 0.96

* The above data is typical of normal production and should not be taken as a specification

Safe handling and storage information

This product has been especially formulated for professional usage. Always refer to the safety data sheets applicable to this product. Only for use with Diversey dosing equipment.

Store in cool & dry place.

Packaging

1 X 25 Litre

Usage Restrictions

Do not expose to high temperature above 65°C & area should be flame-proof.

HARMFUL

DANGEROUS TO ENVIRONMENT
