

Handles and Mop Frames

Key Features

- ▶ Robust
- ▶ Telescopic function
- ▶ Easy replaceable velcro slides
- ▶ Light weight

Benefits

- ▶ Durable, hard wearing
- ▶ Easy handling
- ▶ Ergonomic cleaning and mopping

Description

TASKI handles & frames, comprising Telescope Handles, Mop Frames and an Interior Mop Handle has been especially designed for the professional cleaning.

The TASKI Handles are robust handles especially designed for professional cleaning.

TASKI Telescope handle

This telescope handle is made of special corrosion resistant hard, but light weight aluminium. The handle is adjustable in length with the strong telescopic lock to enable the operator to work ergonomically at the correct working height. The smooth surface of the handles make it easy to wipe off and to keep clean.

TASKI Handle Alu

This handle is made of special corrosion resistant hard, but light weight aluminium. The smooth surface of the handles make it easy to wipe off and to keep clean.

TASKI Frame Velcro

The robust TASKI Frame Velcro are light weight and thin to enable the operator to travel beneath low surfaces. The TASKI Frame Velcro with exchangeable velcro slides can easily be removed, cleaned or replaced.

Handles and Mop Frames Specifications

How to use

It is highly recommended to use the TASKI mop frame together with TASKI handles and Pro Mops. To ensure an ergonomic way of cleaning the telescope handle needs to be adjusted to the correct working height. This can be achieved by placing one foot on the mop frame, twisting the upper part of the mop handle to unlock the system, extending the telescope handle until the top of the handle reaches just below the chin and locking the handle again by twisting in opposite direction.

Compatibility

The TASKI Handle Alu is compatible with mop frame connectors with a diameter of 23.5mm. Eg. TASKI Frame Velcro 25cm, 40cm, 60cm and TASKI Kentucky Mop Clamp.
